

Cross Infection Control CPD

PROSPECTUS

At Dental Training Ltd we aim to provide a comprehensive course delivered in a dynamic and motivational manner.

Available as an online course or in-house course.

Aim:

To ensure all members of the team develop their professional knowledge, understanding and competence in Cross Infection Control.

Objectives:

The course includes the following topics:

1. Review HTM01-05.
2. Recap Microorganisms in dentistry.
3. Look at the importance of Personal Protective Equipment.
4. How to move instruments to and from the Decontamination Area.
5. How to decontaminate and sterilise instruments.
6. Know how to disinfect the dental surgery between patients.
7. Look at what to do in the event of a sharps injury.
8. Know what items go into clinical waste and other waste disposal methods.
9. Look at what records are needed to comply with CQC.

If carried out in-house, our knowledgeable tutors will tailor make this course to your practice's requirements.

3 hours of enhanced CPD and meets GDC Outcomes B,C and D
