

Medical Emergencies

PROSPECTUS

At Dental Training Ltd we aim to provide a comprehensive course delivered in a dynamic and motivational manner.

Available as an online course and in-house course

Aim:

To ensure all staff are able to cope with common medical emergencies in the dental practice.

Objectives:

This course provides all the up to date information needed to ensure you can prevent, diagnose and immediately treat any medical emergencies that may occur in the dental surgery and includes the following subjects:

Recognition and treatment of -

1. Asthma
2. Anaphylaxis
3. Epilepsy
4. Hypoglycemia
5. Faint
6. Angina

For in-house training we also review your emergency drugs/equipment and discuss working as a team and carry out first aid activities

The course does not cover CPR

This course can be combined with our in-house fire safety course.

3 hours of enhanced CPD and meets GDC Outcomes A, B,C and D
